HOW CAN WE HELP YOU  
**MATCH BRICK?**

The Masonry Cosmetics proprietary staining system used by BrixFix changes the color of your masonry naturally by absorbing and chemically bonding to the pore structure. Scientifically speaking, there is now no longer a difference between the stain and the masonry itself. The end result is masonry that still has its original texture and personality, just with a new look. Since each brick is stained one-by-one with custom recipes, we can create your ideal look that will continue to impress for endless years to
